Research Focus

Sociology of work and labour market, gender, social inequality, social stratification, qualitative and quantitative research methods

Current Position

Post-Doc Researcher University of Potsdam, Germany
Post-Doc Research Fellow Vienna University of Economics and Business, Austria

Education

2010 – 2015

Doctorate (Dr. phil.) in Sociology, passed with distinction (07.07. 2015); University of Vienna, Austria

2010 – 2012

Postgraduate School for Social Science “SOQUA”; Certified graduation, passed with distinction (26.06.2012)

2008 – 2011

Programme in “Interdisciplinary Communication, Knowledge Management and Social Learning”, passed with distinction (01.02.2011); Alpen-Adria University Klagenfurt – Faculty for Interdisciplinary Research and Further Training

2005 – 2010

Master studies (Mag.rer.soc.oec) in Sociology, (21.09.2010); University of Vienna, Austria

Methodical Skills

excellent skills in MAXQDA, ATLAS.ti; STATA, SPSS, R

Professional Experience

Since 9/2019

Post-Doc Researcher at University of Potsdam, Germany

Since 09/2018

Lecturer at the Vienna University of Economics and Business, Austria

Since 10/2017

Post-Doc Research Fellow (Hertha Firnberg FWF), Institute of Sociology and Social Research - Vienna University of Economics and Business, Austria

09/2013 – 09/2017

University Assistant at the Department of Sociology, University of Vienna, Austria

09/2015 – 09/2017

Senior Project Consultant at the Institute for Sociology and Social Research at the University of Economics and Business, Vienna, Austria

Sparkling Science Project: Vom “User-Generated Content zum User-Generated Copyright“

2012

Scientific Project Assistant at the Department of Sociology, University of Vienna, Austria

Project: GINI - Growing Inequalities' Impacts in Austria

04/2011 – 08/2013

Scientific Researcher at the Department of Sociology, University of Vienna, Austria

10/2011 – 10/2017

Lecturer at the Department of Sociology, University of Vienna, Austria

03/2009 – 03/2011

Undergraduate Assistant, Department of Sociology, University of Vienna, Austria

04/2009 – 10/2009

Project Assistant “Befragung zur Schulverpflegung in Berlin”

Research Experience Abroad

10/2017 – 10/2018

Visiting Researcher at the Department of Sociology – Nuffield College, University of Oxford (GB) under the sponsorship of Professor Melinda Mills

02/2013 – 06/2013

University of California, Berkeley (USA) – scholarship by the Austrian Research Association and the University of Vienna

Esteem Factors

Review Activities

Current Sociology, European Journal of Futures Research, Gender and Education, Higher Education, International Journal of Sociology, Journal of European Social Policy, Journal of Happiness Studies, Journal of Sociology, Management Review, The Social Science Journal

Awards and Grants

Grant 2022: Remote Work = The New Normal? (€ 110,000)

Outstanding Research Achievements WU Award 2020

Grant 2017: Postdoc-Programm Hertha Firnberg FWF (I 888-G29) – ‘Understanding occupational gender segregation’ (€ 228,720)

Award 2017: for the Dissertation – Awarded by the Austrian Sociological Association (€ 1,500)

Grant 2016: Awarded by the Vienna Chamber of Labour for Dissertations (€ 2,000)

Grant 2016 (start-up funding): Awarded by the Department of Sociology – University of Vienna (€ 900)
Award 2015: Doc.Award – Awarded by the City of Vienna and the University of Vienna for an outstanding dissertation (€ 1,500)
Award 2015: for the Dissertation – Awarded by the Dr. Maria Schaumayer Foundation
Research Grant 2014: awarded by the Cultural Department of the City of Vienna (€ 2,500)
Grant 2013: ‘International Communication’ – awarded by the Austrian Research Promotion Agency (€ 500)
Grant 2013: of the University of Vienna – Short-Term Stays Abroad (€1,000)
Grant 2010: Awarded by Vienna Chamber of Labour for master’s-thesis (€ 1,000)
Grant 2010 (start-up funding): Awarded by the Department of Sociology – University of Vienna (€ 1,500)

Scientific Associations: Memberships

Member of the Austrian Sociological Association (ÖGS)
Member of the German Sociological Association (DGS)
Member of the European Sociological Association (ESA)
 Research Network: Gender Relations in the Labour Market and the Welfare State
 Research Network: Women’s and Gender Studies
 Research Network: Sociology of Professions
Member of the American Sociological Association (ASA)

Workshop Organisation

September, 2019

Organisation of Ad-hoc Session “The structure of social inequality and social change”
ÖGS – Congress Salzburg, Austria.

May 24, 2016

Organisation of Panel Discussion “Ready to Work”, Junior Social Scientist Research Week, Department of Sociology, University of Vienna, Austria.

November 25, 2016

Co-organisation of the workshop: “Perspektiven schaffen!”
Founding member of the initiative “Rising Scholars” – Junior Scientist Development and Qualification Initiative, Department of Sociology, University of Vienna, Austria.

May 07, 2015

Organisation of Panel Discussion “Ready to Work”, Junior Social Scientist Research Week, Department of Sociology, University of Vienna, Austria.

October 17, 2011

Organisation of Panel Discussion “Poverty in the Achieving Society: Produced Societally or Self-Inflicted?” University of Vienna, Austria.

Media Coverage

Requests as an expert in different areas of social inequality, labour market and gender inequality, for example:

- **Television interviews**, e.g. ORF; ORF 3 „Report“; “Frauen | Fragmente - Wissenschaftlerinnen Gestern Heute Morgen”; Bildungs.TV “Working Poor”
- **Radio interviews**, e.g. Ö1 (“Radiokolleg”, “Saldo – das Wirtschaftsmagazin”, “Wissen aktuell”)
- **Newspaper interviews**, e.g. Science.apa.at, ORF Science, Der Standard, Der Falter, Die Presse

Third-Party-Funded Projects

* Total funding sum (international projects: total funding sum for Austria)

** Total funding sum for Nina-Sophie Fritsch

*** Currently submitted to funding authority

Title	Runtime	Funding	Volume	Role
Remote Work is the New Normal ***	2022-2024	AK Vienna Austria	€ 108,776 *	Principle Investigator

During the COVID-19 pandemic remote work has become the new normal in Austria. We investigate how this changes negotiation processes between employees and employers and in which contexts a new and strengthened position of employees develops since these disruptive changes on the labour market provide an extensive potential for the (re)design of working relationships and organisational structures. In order to use this potential, we direct our attention to newly created forms of solidarity-based autonomies. Based on a qualitative research design, we aim to develop evidence-based recommendations for employees.

Title	Runtime	Funding	Volume	Role
Understanding occupational gender segregation	2017-2022	Austrian Science Fund (FWF)	€ 228,720 **	Principle Investigator

In spite of numerous gender equalisation programmes aiming at the promotion of women, occupational segregation between women and men continues to be a key feature of inequality in the social structure and on the labour market. This fact is reflected by a gender-specific allocation of typically ‘male’ or ‘female’ occupations mostly accompanied by unequal hierarchical positions. Encountered in all European countries, occupational gender segregation is particularly marked in Austria due to the long-lasting classic division of labour and a culture strongly orientated towards traditional images of the family. Now, what are the reasons why gender-specific inequalities in the labour market have remained extraordinarily stable – or have even increased in certain segments – regardless of numerous changes in the labour market structure (e.g. women’s improving labour force participation rates and educational qualifications)? Much social research has been devoted to describe various facets of gender-specific inequalities, while the precise causes and backgrounds of occupational gender segregation have been less intensively explored. The objective is to broaden the knowledge on this present topic in the view of current societal challenges. The project is funded by the Austrian Science Fund.

Title	Runtime	Funding	Volume	Role	Principle Investigator
From ‘User-Generated Content’ to a ‘User-Generated Copyright’	2015-2017	Sparkling Science research project BMFWF	€ 166,639 *	Senior Project Consultant	Clemes Appl

During the last decade, cultural change has radically altered the ways of distributing und consuming copyrighted creations. In light of an emerging ‘digital economy’, which is especially fostered by a wide availability of broadband technologies, cloud-computing services and changed user habits, the traditional concept of copyright is subject to a broad public debate. It becomes more and more common to distribute digital copies of works not only on tangible media, but also via online accessible platforms. Nowadays, users ‘buy’ and more often ‘consume’ digital goods online. From a legal, economic and social perspective, this paradigm shift rigorously challenges the classical copyright doctrine, which follows an ‘analogue-world’ approach. Thus, this research project aims to provide a definition of relevant prerequisites for a modern,

well-balanced copyright system based on a broad social consensus. The project was funded by the Federal Ministry of Science, Research and Economy as part of the research project ‘Sparkling Science’.

Title	Runtime	Funding	Volume	Role	Principle Investigator
GINI - Growing Inequalities’ Impacts in Austria	2012-2013	7th Framework Programme of the European Community	€ 25,000 *	Researcher	Roland Verwiebe

The core objective of GINI was to deliver important new answers to questions of great interest to European societies: What are the social, cultural and political impacts that increasing inequalities in income, wealth, work and education may have? How did they change over the last decades? The project highlighted the potential effects of individual distributional positions and increasing inequality for a host of ‘bad outcomes’ (both societal and individual) and allowed feedback from these impacts to inequality itself in a frame of policy-oriented debate and comparison across 25 EU countries, the USA, Japan, Canada and Australia. GINI combined an interdisciplinary analysis with improved methodologies, uniform measurement, wide country coverage, a clear policy dimension and broad dissemination.

List of 10 most important scientific talks (arranged chronologically; *invited)

1. Fritsch, Nina-Sophie / Präg, Patrick / Richards, Lindsay (2019) Intragenerational Social Mobility and Wellbeing. A Biomarker Approach. RC 28 Spring Meeting. Frankfurt. Germany.
